*(1) Adjusted Gross Profit (Loss), Adjusted Gross Profit Margin, Adjusted SG&A, Adjusted SG&A as a percent of net sales, Adjusted EBITDA, and Free Cash Flow are non-GAAP measures. For reconciliations of non-GAAP to GAAP measures see the "Reconciliation of Non-GAAP Measures" accompanying the release.*

*(2) In 2023, \$1.2 million of certain inventory charges negatively impacted Gross Profit, Adjusted Gross Profit, Net Loss, and Adjusted EBITDA; while SG&A, Adjusted SG&A, Net Loss, and Adjusted EBITDA were positively impacted by \$0.7 million of benefits from certain recoveries of accounts receivable reserves and write-downs. In 2022, \$18.5 million of inventory reserves and related charges negatively impacted Gross Profit, Adjusted Gross Profit, Net Loss, and Adjusted EBITDA; and accounts receivable reserves of \$2.9 million negatively impacted SG&A, Adjusted SG&A, Net Loss, and Adjusted EBITDA.*

Bill Toler, Chairman and Chief Executive Officer of Hydrofarm, said, "Successful execution of our restructuring plan and related cost savings efforts throughout the year enabled us to deliver positive Adjusted EBITDA<sup>(1)</sup> and Free Cash Flow<sup>(1)</sup> in 2023. Our margins improved as we focused on higher margin products and enhanced our operational efficiency. Our cash balance grew and our inventory levels decreased as we managed our working capital aggressively. Our revenue base became more diverse, with further penetration into geographies outside of the US/Canada and into sales channels serving non-cannabis CEA applications, including food, floral, and lawn & garden. We are well underway with the second phase of our restructuring strategy, focused primarily on the durables side of our business, and in conjunction with several productivity initiatives expect to realize additional cost savings in 2024. Despite the industry softness, we believe that we have made significant progress and we are confident in the long-term fundamentals of our business and the growth opportunities ahead."

### **Fourth Quarter 2023 Financial Results**

Net sales in the fourth quarter of 2023 decreased to \$47.2 million compared to \$61.5 million in the fourth quarter of 2022, primarily due to a 18.7% decline in volume of products sold and a 4.5% decrease in price/mix of products sold. The decrease in volume was primarily related to an oversupply in the cannabis industry. The reduction in price/mix was mainly due to lower pricing in durable products, as well as a higher mix of lower-priced consumables relative to higher-priced durable products.

The Company initiated a second phase of its restructuring plan in the third quarter of 2023, primarily to right-size its U.S. durable equipment manufacturing facilities to better match the current levels of demand. For the fourth quarter of 2023, the Company incurred estimated charges of \$1.3 million for the second phase of its restructuring plan, consisting primarily of non-cash raw material inventory write-downs related to reductions in facility space.

Gross profit increased to \$8.4 million, or 17.9% of net sales, during the fourth quarter of 2023, compared to a Gross Loss of \$(0.5) million, or (0.8)% of net sales, in the prior year period. The increase in gross profit and gross profit margin was primarily due to lower restructuring charges, a higher proportion of proprietary brand products sold, lower freight costs and improved productivity compared to the fourth quarter of 2022. Adjusted Gross Profit<sup>(1)</sup> increased to \$11.5 million, or 24.3% of net sales, compared to \$9.0 million, or 14.7% of net sales, in the prior year period. Adjusted Gross Profit<sup>(1)</sup> and Adjusted Gross Profit Margin<sup>(1)</sup> increased primarily due to a higher proportion of proprietary brand products sold, lower freight costs and improved productivity. This margin improvement was aided by the restructuring plan and the related cost saving initiatives.

Selling, general and administrative ("SG&A") expense was \$19.9 million, compared to \$26.2 million in the prior year period, and Adjusted SG&A<sup>(1)</sup> was \$12.0 million, compared to \$17.4 million in the prior year period. The decrease in SG&A and Adjusted SG&A<sup>(1)</sup> was primarily due to a reduction in compensation costs from headcount, accounts receivable reserves, and professional fees, which was aided by the Company's restructuring plan and related cost saving initiatives.

Net loss was \$(15.2) million, or \$(0.33) per diluted share, compared to a net loss of \$(35.3) million, or \$(0.78) per diluted share, in the prior year period. The improvement was primarily due to higher gross profit, lower SG&A expenses, and lower income tax expense.

Adjusted EBITDA<sup>(1)</sup> was \$(0.6) million, compared to \$(8.4) million in the prior year period. The improvement related to lower Adjusted SG&A<sup>(1)</sup> and higher Adjusted Gross Profit<sup>(1)</sup>.

### **Balance Sheet, Liquidity and Cash Flow**

As of December 31, 2023, the Company had \$30.3 million in cash and approximately \$22 million of available borrowing capacity on its Revolving Credit Facility. The Company ended the fourth quarter with \$122.5 million in principal balance on its Term Loan outstanding, \$9.7 million in finance leases, and \$0.2 million in other debt outstanding. During 2023, the Company maintained a zero balance on its Revolving Credit Facility and was in compliance with debt covenants as of December 31, 2023.

The Company had a net cash usage from operating activities of \$(1.6) million and invested \$0.2 million in capital expenditures, yielding negative Free Cash Flow<sup>(1)</sup> of \$(1.7) million for the three months ended December 31, 2023.

For the full year 2023, the Company generated cash flow from operating activities of \$7.0 million and invested \$4.2 million in capital expenditures, yielding positive Free Cash Flow<sup>(1)</sup> of \$2.8 million.

### **Full Year 2024 Outlook**

The Company is providing the following outlook for the full fiscal year 2024:

- **Net sales** to decrease low to high teens in percentage terms.
- **Adjusted EBITDA<sup>(1)</sup>** that is positive.
- **Free Cash Flow<sup>(1)</sup>** that is positive.

Hydrofarm's 2024 outlook is predicated on several assumptions, including:

- Improved year-over-year Adjusted Gross Profit Margin<sup>(1)</sup> resulting primarily from (i) cost savings associated with restructuring and related productivity initiatives and (ii) an expectation of minimal non-restructuring inventory reserves or related charges.
- Reduced year-over-year Adjusted SG&A<sup>(1)</sup> expense resulting primarily from (i) full year benefit of headcount reductions completed in 2023 and (ii) further reductions in professional fees, facilities and insurance expenses.
- Reduction in inventory and net working capital helping to generate positive Free Cash Flow<sup>(1)</sup> for the full year.
- Capital expenditures of approximately \$4.0 million to \$5.0 million.

*(1) Adjusted Gross Profit (Loss), Adjusted Gross Profit Margin, Adjusted SG&A, Adjusted SG&A as a percent of net sales, Adjusted EBITDA, and Free Cash Flow are non-GAAP measures. For reconciliations of non-GAAP to GAAP measures see the "Reconciliation of Non-GAAP Measures" accompanying the release.*

**Non-GAAP Financial Measures**

We report our financial results in accordance with generally accepted accounting principles in the U.S. ("GAAP"). Management believes that certain non-GAAP financial measures provide investors with additional useful information in evaluating our performance and that excluding certain items that may vary substantially in frequency and magnitude period-to-period from net loss provides useful supplemental measures that assist in evaluating our ability to generate earnings and to more readily compare these metrics between past and future periods. These non-GAAP financial measures may be different than similarly titled measures used by other companies.

To supplement our condensed consolidated financial statements which are prepared in accordance with GAAP, we use "Adjusted EBITDA", "Adjusted Gross Profit", "Adjusted SG&A", "Free Cash Flow", "Net Debt", and "Liquidity" which are non-GAAP financial measures. We also present certain of these non-GAAP metrics as a percentage of net sales. Our non-GAAP financial measures should not be considered in isolation from, or as substitutes for, financial information prepared in accordance with GAAP. There are several limitations related to the use of our non-GAAP financial measures as compared to the closest comparable GAAP measures.

We define **Adjusted EBITDA** (non-GAAP) as net loss (GAAP) excluding interest expense, income taxes, depreciation, depletion and amortization, stock-based compensation including employer payroll taxes on stock-based compensation, restructuring charges which represent fundamental changes to our operations, and other non-cash, unusual and/or infrequent costs (i.e., impairments, severance, acquisition and integration expenses, distribution center exit costs, and other income/expense, net), which we do not consider in our evaluation of ongoing operating performance.

We define **Adjusted EBITDA** (non-GAAP) as a **percent of net sales** as adjusted EBITDA (as defined above) divided by net sales realized in the respective period.

We define **Adjusted Gross Profit** (non-GAAP) as gross profit (GAAP) excluding depreciation, depletion, and amortization, restructuring charges, and other non-cash, unusual and/or infrequent costs (i.e., severance and other expenses, and acquisition and integration expenses), which we do not consider in our evaluation of ongoing operating performance.

We define **Adjusted Gross Profit Margin** (non-GAAP) **as a percent of net sales** as Adjusted Gross Profit (as defined above) divided by net sales realized in the respective period.

We define **Adjusted SG&A** (non-GAAP) as SG&A (GAAP) excluding depreciation, depletion, and amortization, stock-based compensation including employer payroll taxes on stock-based compensation, restructuring charges, and other non-cash, unusual and/or infrequent costs (i.e., severance and other expenses, acquisition and integration expenses, and distribution center exit costs), which we do not consider in our evaluation of ongoing operating performance.

We define **Adjusted SG&A** (non-GAAP) **as a percent of net sales** as Adjusted SG&A (as defined above) divided by net sales realized in the respective period.

We define **Free Cash Flow** (non-GAAP) as Net cash from (used in) operating activities less capital expenditures for property, plant and equipment. We believe this provides additional insight into the Company's ability to generate cash and maintain liquidity. However, Free Cash Flow does not represent funds available for investment or other discretionary uses since it does not deduct cash used to service our debt or other cash flows from financing activities.

We define **Liquidity** as total cash, cash equivalents and restricted cash, plus available borrowing capacity on our Revolving Credit Facility.

We define **Net Debt** as total debt principal outstanding plus finance lease liabilities, less cash, cash equivalents and restricted cash.
